Las Vegas NV- Cenium Inc. the unique provider of a global ERP ((Enterprise Resource Planning) solution specifically for the hospitality industry, announced today their new office opening in Hong Kong to service the region's growing hospitality market. Cenium Asia LTD's office will support: Cenium's existing customers in the area and the anticipated extensive growth in the Asia. This opening follows that of Cenium Inc.'s North American headquarters in Las Vegas in 2010.

"China has a strong history of innovation and is home to thousands of talented technical people who we will rely on to solve the challenges of designing and building the next generation of Cenium customers," Cenium's President Jeff Kiehn said Monday morning. Cenium Asia LTD. will sell, implement and support the Cenium ERP Product with Jeff Kiehn overseeing its operations.

About Cenium

Cenium is a global organization providing a unique ERP (Enterprise resource planning) solution integrating management information across an entire organization typically employing a single database embracing property management, finance/accounting, production/supply chain, point of sale, and customer relationship management. Cenium is based on the Microsoft Dynamics NAV platform and provides the hospitality industry with a unified one stop business solution to information management. Successfully proven by chains and individual hotels globally with offices in Las Vegas, Toronto, Hong Kong and Oslo, Cenium is a Gold awarded development center and partner in the Microsoft Dynamics NAV community.
